

Room Automation Guide

Welcome to **Maya Ilai Resort**.

We are delighted to have you with us and hope you enjoy a comfortable and relaxing stay.

To help you get acquainted with your room, please find below a short guide to the smart automation features available.

Smart Room Features

Your room is equipped with an **intelligent automation system** designed to enhance comfort while helping conserve energy and protect the environment.

The system includes **occupancy and environmental sensors** that automatically manage several functions in your room:

- **Automatic Lighting**
Lights will turn on automatically when natural light in the room is insufficient.
- **Air Conditioning Control**
The air conditioner will switch off automatically if any **door or window is left open**.
Please ensure all doors and windows are closed for the AC to operate.
- **Energy Saving Mode**
If no presence is detected in the room, the system will automatically switch off lights and other services to conserve energy.
- **Night Guidance Lighting**
Soft lights under the bed will turn on automatically when you get up at night to help guide you safely to the bathroom.

You have two switches; Bed Switch and Door Switch

Bed Switch

- **5 touch zones**
 - 1 large center touch
 - 4 corner touch areas
- **Capacitive touch surface** (no mechanical buttons)
- **Integrated temperature & humidity sensor** for room climate control
- **Acoustic click feedback** when touched
- **Supports single, double, and triple tap commands**

A single Touch Tree switch can control multiple room functions:

Touch Zone	Typical Use
Center	Lighting Scenes
Top left	Blinds up
Bottom left	Blinds down
Top right	Music volume +
Bottom right	Music volume -

Door Switch

The **Door Switch** allows you to access several room services and functions.

Function	Description
DND – Do Not Disturb	Activates Do Not Disturb mode. A red indicator will appear on the NFC panel outside your door.
Lighting	Controls the lighting scenes in your room.
Door	Unlocks the door electronically.
Restaurant	Sends a request for room service. The LED turns on and the outside NFC panel light turns white .
Reception	Calls the Guest Experience Manager. The NFC panel light turns green .
Cleaning	Notifies housekeeping to attend to your room. The NFC panel light turns blue .

Features Currently Unavailable on this switch

The following functions are not active in this room:

- Music / Ambient music
- Curtain control
- AC temperature adjustment from the switch
- AC swing control
- AC fan control

The **air conditioning temperature** can be adjusted using the **remote control provided in your room**.

Need Assistance?

If you require any assistance or have questions during your stay, please feel free to contact our **Guest Experience Manager**.

We wish you a **pleasant and relaxing stay at Maya Ijai Resort**.
